

## PoDoCo päätökset syksy 2024

Hakija	Yritys	Hankkeen nimi	Säätiö
Velashjerdi Farahani Azin	Granlund Oy	Development of an AI-driven Predictive Tool for Enhancing Energy Efficiency in Early-stage Building Design	Jenny ja Antti Wihurin rahasto
Mustafa Rawand	Nordic Bioproducts Group Oy(NBG)	Assessment of structurally tunable microcrystalline cellulose for sustainable drug formulations	Svenska Kulturfonden
Zhang Xiaolong	u-blox Oy	Ultra-Low-Power GNSS Positioning Solution for IoT and Livestock Tracking	Jenny ja Antti Wihurin rahasto
Temer Diana	The Warming Surfaces Company	Thermal implications on HPL materials and electric contacts with integrated Halia® warming technology	Liikesivistysrahasto
Elsanhoury Mahmoud	Septentrio Finland Oy	REACT - RESilient GNSS positioning on embedded platforms: Advanced mitigation of direCted interference Threats	KAUTE
Al-Sa'd Mohammad	Haltian Oy	A Cognitive-Collaborative Semi-Supervised Learning (CSL) Framework for AI Solutions in IoT Systems	Jenny ja Antti Wihurin rahasto
Torkan Masoud	Fractuscan Oy	Optimizing scale and orientation in photogrammetric analysis for precision rock engineering using cost-effective tools like smartphone	Tekniikan edistämssäätiö
Vesinurm Märt	Nordic Healthcare Group Oy	Managing complex patient processes using process mining on electronic health records	Liikesivistysrahasto
Liu Yining	Danfoss Drives Oy	Optimization for next-generation power converters	Jenny ja Antti Wihurin rahasto
